Enthusiastic and self-motivated developer with 5+ years of experience. Extremely motivated to constantly develop my skill and knowledge. Equipped with a diverse and promising skill-set. Proficient in various platforms, languages, and embedded systems. Able to effectively self-manage during independent projects, as well as collaborate as part of productive team.

Experience

Senior Front End Developer

OBS Financial Solutions Pte Ltd | Multinational Company

Oct 2024 - Nov 2025

Key Projects:

- OSTS 5.0 Product Treasury Financial System
 - Led front-end development for a complex financial treasury platform.
 - Collaborated with product and backend teams to deliver real-time data dashboards, financial transaction modules, and reporting features.
 - Ensured security, scalability, and high performance of UI components.
- BTPN Islamic Fintech Relation
 - Spearheaded development of user-facing interfaces for Islamic fintech banking.
 - Delivered responsive UIs tailored to Shariah-compliant user journeys.
 - Integrated third-party APIs for secure customer onboarding and transaction flows.
- Orfist & Orbits Web Systems
 - Managed the revamp and development of scalable enterprise web platforms.
 - Worked closely with cross-functional teams to ensure intuitive UX across devices.
 - Oversaw code migration and optimization for large-scale deployments.

Technical Responsibilities:

- Developed modern, maintainable front-end applications using TypeScript and React.js.
- Led code reviews, enforced clean code standards, and mentored junior developers.
- Fixed critical bugs across multiple environments with rigorous testing strategies.
- Ensured mobile and desktop responsiveness across modern browsers using CSS modules, Tailwind, and/or styled-components.
- Optimized web performance and accessibility according to industry best practices.
- Contributed to DevOps pipeline integration for continuous delivery and testing.

Tools & Technologies:

- Languages/Frameworks: TypeScript, React.js, JavaScript (ES6+), HTML5, CSS3
- State Management: Redux, Context API
- Testing: Jest, React Testing Library
- CI/CD: GitHub Actions, Jenkins (if used)
- Version Control: Git, GitLab, GitHub
- Development Environment: Agile
- Collaborative Tools: Taiga, Figma, Postman
- AI tools: Claude, GitHub Copilot, Gemini CLI

Front End Developer Lead

Nov 2021- Oct 2024

UNITED TRACTORS (UT) | ASTRA Group

Key Projects & Contributions:

- UT Connect Mobile (Android/iOS)
 - Led front-end development for UT Connect Care – a ticketing feature integrated with Salesforce, enabling real-time customer support and seamless data syncing.
 - Integrated Salesforce Chatbot for mobile platforms to provide automated customer interactions and support.
- Mentorship & Knowledge Sharing
 - Actively mentored interns and junior developers in UT Innovation and Data Analytics Tools.
 - Conducted internal sharing sessions on best practices, tooling, and new technologies.

3. Web Platform Enhancements
 - Delivered enhancements for the Web To-Do List, covering 8 use cases, including:
 - Feedback submission module
 - Notes & Reason fields
 - Advanced filtering (e.g., document age, number, business area)
 - Data export to Excel
 - Business area summary cards
 - Ensured fully responsive web design across desktop, tablet, and mobile devices.
4. Cross-Workstream Collaboration
 - Refactored shared component libraries under CLA-Project, collaborating with the Financial Solution Team to ensure scalability and consistency across systems.
 - Contributed to bug fixing, performance optimization, and participated in daily Scrum meetings for agile delivery.
 - Feature R&D and Implementation
5. Researched and tested emerging technologies and tools, including:
 - React-mention, PWA integration, mermaid.js for diagrams
 - SSO authentication, React.lazy, Split Webpack for optimized bundling
 - Azure App Insight for frontend telemetry
 - Dexie.js for IndexedDB storage in offline mode
 - Metabase integration for data analytics and visualization
6. Testing & Documentation
 - Created unit tests to ensure frontend reliability and regressions.
 - Led deployment using Git command line to Azure DevOps pipelines.
 - Authored and maintained Wiki documentation and internal guides.

Tools & Stack:

- Languages/Frameworks: React.js, TypeScript, Angular, Vue.js, JavaScript, HTML5, CSS3
- Mobile Frameworks: React Native (or hybrid mobile stack, if applicable)
- State Management: Redux, Context API
- Testing: Jest, React Testing Library
- CI/CD & Deployment: Azure DevOps, Git CLI
- Analytics: Metabase, App Insight (Azure)
- AI tools: Microsoft Copilot, Claude
- Offline Storage: Dexie.js
- Collaborative Tools: Azure DevOps, Figma, Wiki, Swagger
- Development Environment: Waterfall
- Visualization: Mermaid.js, Metabase

Full Stack Developer (Front-End Focused)

Oct 2020 - Oct 2021

Freelance

- Building fast, scalable e-commerce interfaces with Next.js, Node.Js, Python.
- Backend native framework (actions, loaders, API routes), database integration (PostgreSQL), create responsive UIs, optimize performance, integrate APIs, and write clean, maintainable code.
- Collaborate smoothly with design, product, adapt quickly to new tools and requirements.
- Passionate about crafting intuitive digital experiences that boost e-commerce growth.
- Experienced with Agile (Scrum) practices and Jira for project and task management.

Education			Skill & Expertise
●	Gunadarma University	2021	- Proficiency in English - Fast learner and able to grasp new concepts quickly - The ability to analyze technical information - Able to analyze, design and implement database structures - Detail oriented - Excellent problem solver
	Bachelor of Science		
●	FH Kaiserlautern SC Germany	2016	
●	Spraachen - Aachen, Berlin		
	Deutsch Course	2015	
	Certified B2 Deutsch Language
